

pei tel »Provider for complete communication solutions«

Certified according to ISO 9001:2015

- Customer satisfaction and highest product quality
- Qualified employees with many years of experience

Everything from a Single Source – Development, Production, Distribution

pei tel offers you everything from a single source when it comes to support. From ordering accessories to project planning for large tenders. Additional we also provide solutions for mobile information and communication systems and broadband transmission. These are used, among other things, for equipping buses in regular service and nationwide.

We are the specialist for communication solutions in vehicles - for over 30 years. Our portfolio includes hardware and software products as well as the development of individual solutions and services for interference-free voice and data transmission.
